

My name is Presila Ivanova.

I have been teaching English for three years, and I have always looked for new opportunities for self-development. I graduated the English Language School "Geo Milev" in my hometown, Ruse, I studied at the University of Veliko Tarnovo, where were my first steps in the profession - an English language teacher. I also had the opportunity to study at the Chinese University of Geosciences in Wuhan, where I could face " the different " .

I love books, travel, foreign languages and cultures. I love communicating with people, and that's where my love for teaching comes from. This is the thing that makes me feel really satisfied and happy. In my teaching practice I apply not only the relevant methodology and modern educational technologies, but also my life experience and moral principles.

I am also extremely grateful for the opportunity to work at Training Centre Raya London, where I am pleased to help people who are eager to learn.
